

Arizona Rivers RRE is:

- Working as a team
- Exploring parts of Arizona few ever see
- Learning by doing

Students as researchers

- Gain understanding and confidence in the use of field research techniques
- Connect and work with experts in riparian and ecologic restoration
- Develop an individualized research project on an issue of local concern

Arizona Rivers

Tucson, Arizona 85721-0011

Dive into Arizona Rivers HS Riparian Research Experience

Join us for 15 days you'll never forget

An adventure of a lifetime

... A real learning experience ...

... The best summer ever!

Arizona Rivers is funded by
UA-SAHRA and includes partners at:
The University of Arizona, Phoenix College
and Northern Arizona University

What it's about

- **Learn** hydrologic and ecologic sampling skills
- **Explore** highly diverse environments throughout Arizona conducting riparian zone environmental assessments
- **Experience** the natural wonders of Arizona while camping and hiking from deserts to mountains
- **Summary:** This 15-day summer research experience for up to ten highly motivated H.S. students will develop field research skills and a greater appreciation of the importance of water in semi-arid regions.
- **Follow-up:** You will be assisted in developing a year-long, science research project after attending the RRE, utilizing your new-found field skills and working with an extensive group of Arizona Rivers partners. Projects can be based on laboratory or field observations related to ecology and/or hydrology.

Dive into Arizona Rivers HS Riparian Research Experience (RRE)

Dates: June 12-27, 2010

Location: Southwestern Academy, Rimrock, AZ

Cost: \$700, includes all food and lodging (some need-based partial scholarships available)

Ages: entering grades 10th – 12th (entering 9th by permission)
