8:00 meet at Rio Salado
12:00 Lunch in HC4 at PC (45)
Afternoon Session (DB106 at PC)
4:00 Adjourn

Classroom:

Our classroom is located at Phoenix College in the Dalby Building on 11 Ave in Room 106 (DB106). We will be meeting here every day after returning from our morning field trip. Visit <http://www.pc.maricopa.edu/map/> for a map of this location.

Field Trip Information:

Our field site is the Rio Salado Restoration Project (RSRP). We will be at the north-side parking lot off Central. We will be walking on and off the trails on the north bank of the river over uneven ground covering a little less than a mile roundtrip. We will pause along the way to carry out a variety of study activities. Visit <http://phoenix.gov/riosalado/> for more information about the Restoration Project. Since we will be outside in the morning (7:30-11:30 am), we recommend light cotton, sturdy clothes that cover most of your body or plenty of sun cream. **A hat, sturdy shoes, sunglasses, and something to carry water are necessary.** Please, bring a binder, a note pad, and pencil or pen. We will be providing three hole punched materials to add to your binder.

Emergency Contact Information:

Please, bring the name address and phone number of a person who would be available during workshop hours who is able and willing to act as an emergency contact. If you are a minor this should be your parent or guardian.
